OneCalc Pro

PRODUCT GUIDE

ALL-IN-ONE CALCULATOR — IPHONE, APPLE WATCH AND ANDROID

Every calculator *you need, in one.*

A beautiful standard and scientific calculator, a pay and overtime tracker, Scan & Solve with step-by-step answers, live currencies and handy converters.

iPhone | Apple Watch | Widget | Android

INSIDE THIS GUIDE

One app, *nine tools*

OneCalc Pro replaces a drawer full of single-purpose apps. Everyday maths, money, work hours and conversions — all in one fast, tidy app.

CONTENTS

3 Getting started
4 Calculator
5 Pay & overtime tracker
6 Scan & Solve
7 Currency converter
8 Converters & calculators
9 Apple Watch, widget & themes
10 Everyday examples
11 Privacy & questions

01 **Everyday maths**
Shopping, bills, splitting costs and quick sums.

02 **Shift workers**
Track hours, overtime and what your pay should be.

03 **Students**
Scan a problem and see how to solve it, step by step.

04 **Travellers**
30+ currencies that work even offline.

MAKE IT YOURS

9 themes, Watch and widget

Pick a theme, keep a calculator on your wrist and a widget on your Home Screen.

9 themes
Light, dark and colour

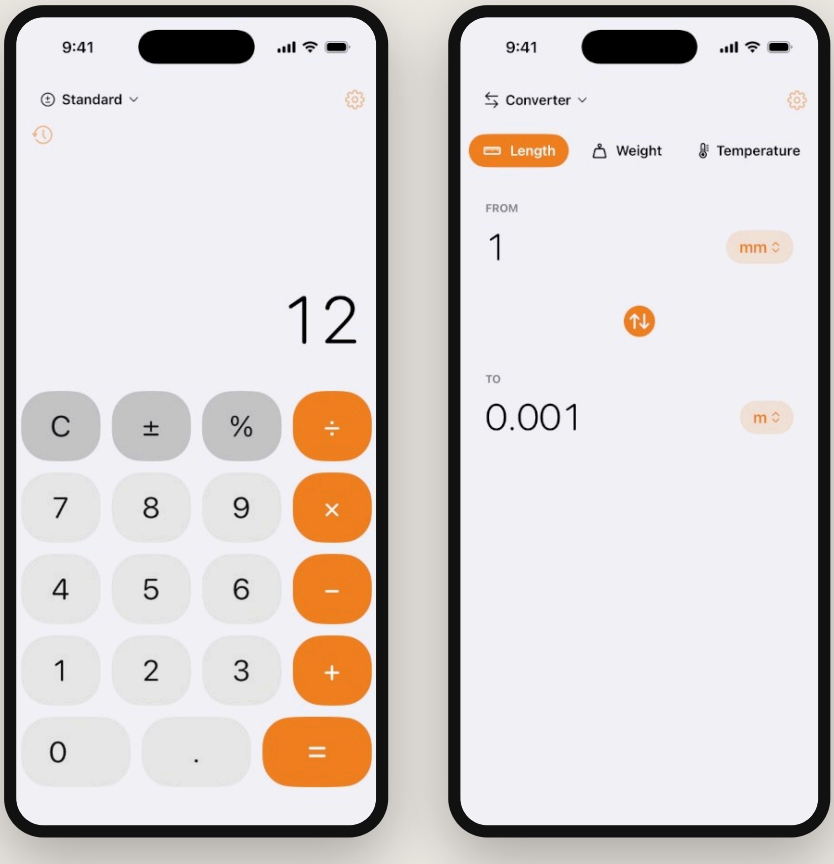
Apple Watch
Quick sums on the wrist

Widget
One tap away

GETTING STARTED

Open and *calculate*

No account and no setup. Switch tools from the menu at the top.



1 **Pick a tool**

Tap the menu at the top to switch between calculator, pay, scan, currency and converters.

2 **Check your history**

Every calculation is kept, so you can reuse a result.

3 **Choose a theme**

Pick one of nine themes in Settings.

4 **Try Premium free**

A 3-day free trial unlocks every Premium tool.

CALCULATOR

Standard and *scientific*

A clean, big-button calculator that turns scientific when you need it.

01

Standard

Big, clear buttons for everyday sums.

02

Scientific

Trigonometry, powers, roots, logs and more.

03

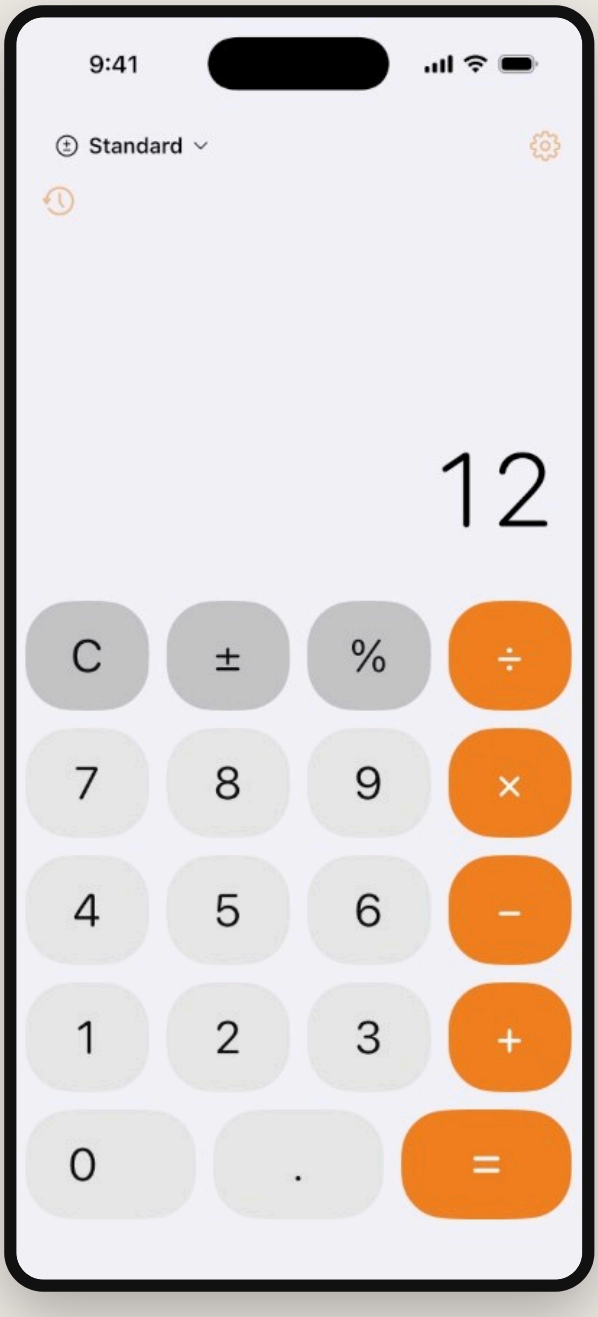
History

Scroll back through earlier calculations and reuse results.

04

Percent made easy

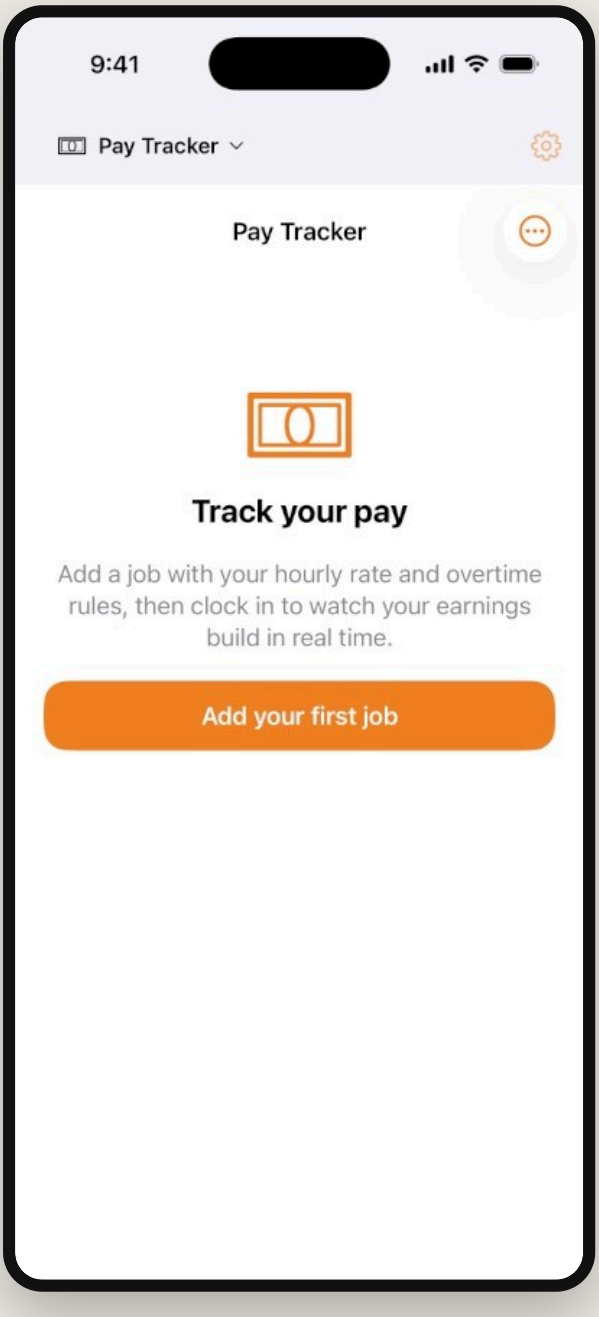
± and % keys that work the way you expect.



PAY & OVERTIME

Know what *you've earned*

Log your shifts and OneCalc works out your hours, overtime and expected pay.



01

Shifts and hours

Add start and end times and breaks.

02

Overtime rates

Set your normal and overtime rates.

03

Expected pay

See what your payslip should show.

04

Week by week

Totals for each week so nothing is missed.

SCAN & SOLVE

Snap it. *See the steps.*

Photograph a maths problem or pick a photo. OneCalc reads it and explains the solution step by step.

01

Camera or photo

Take a picture or choose one you already have.

02

Step-by-step answers

Not just the result — how to get there.

03

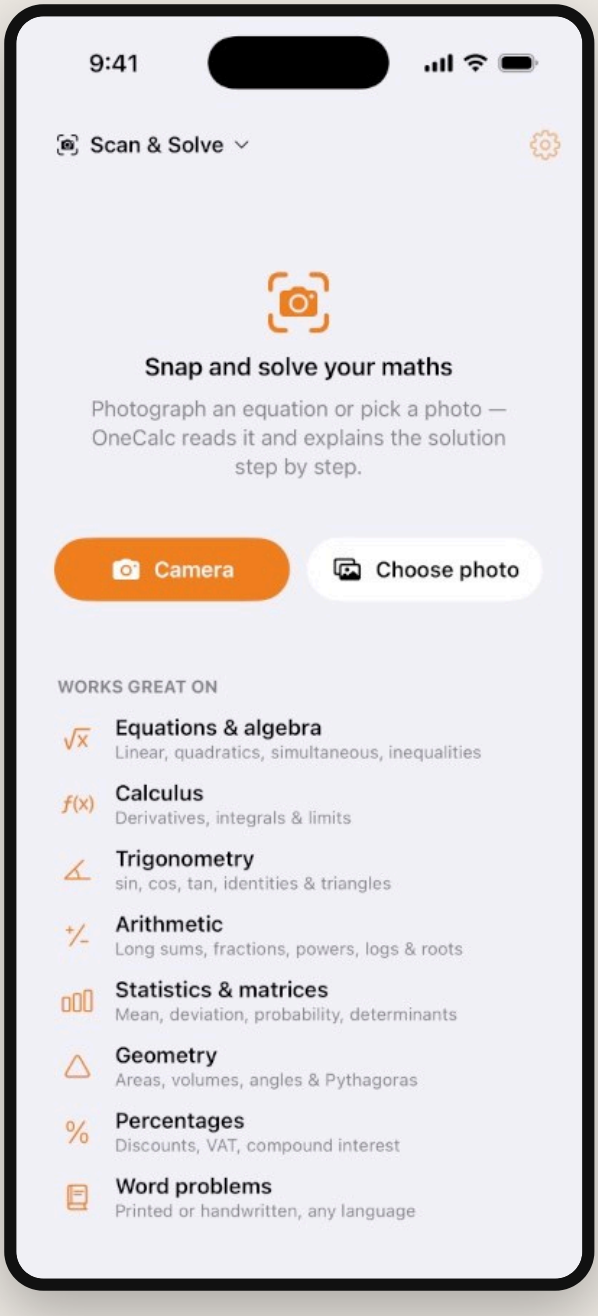
Works on lots of topics

Algebra, calculus, trigonometry, statistics, geometry and percentages.

04

Word problems

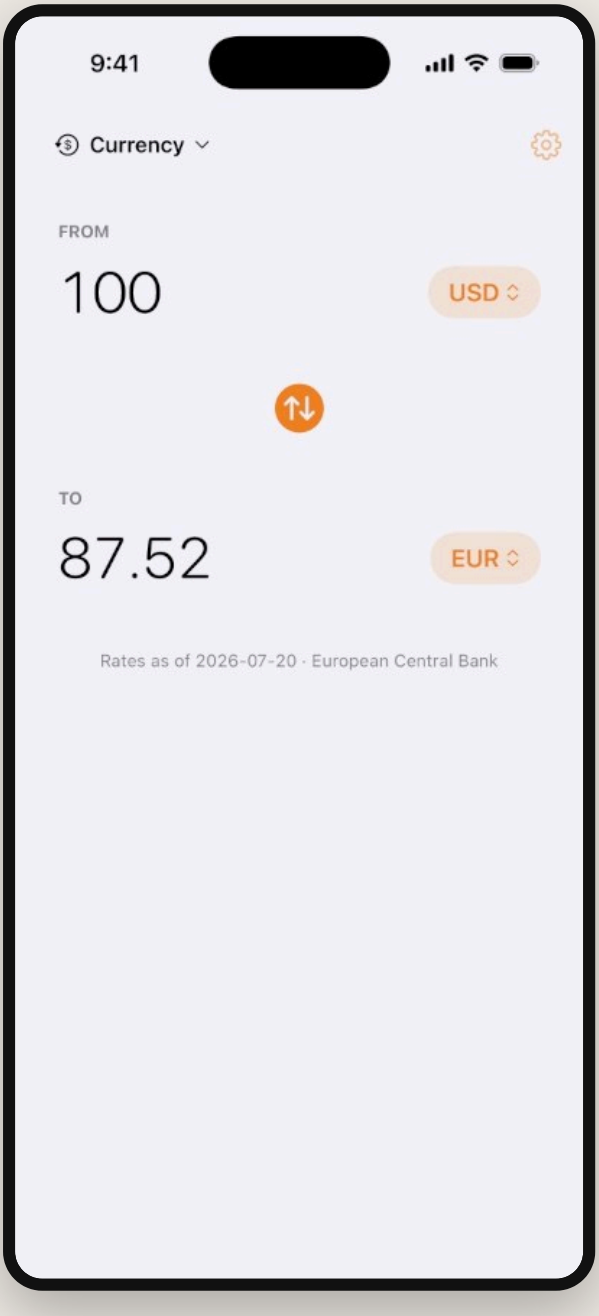
Printed or handwritten questions too.



CURRENCY

30+ currencies, *even offline*

Exchange rates from the European Central Bank, saved on your phone so the converter still works without signal.



01

30+ currencies

All the major currencies and many more.

02

ECB rates

Reference rates from the European Central Bank.

03

Works offline

The last rates are saved for when you travel.

04

Quick swap

Flip the direction with one tap.

CONVERTERS

Units, time *and percentages*

All the everyday converters and money calculators in one place.

01

Unit converter

Length, weight, volume, temperature and more.

02

Time and percent

Add up times and work out percentages quickly.

03

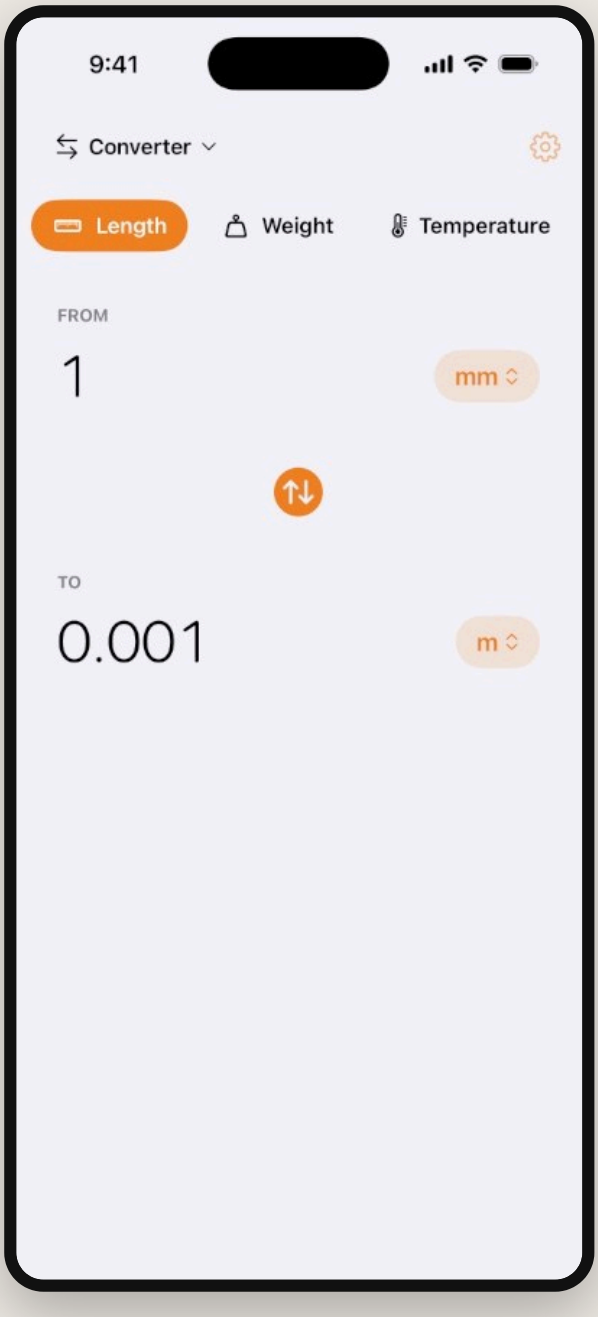
Discount calculator

See the sale price and how much you save.

04

Loan calculator

Monthly payment and total interest at a glance.



WATCH & WIDGET

On your *wrist and Home Screen*

OneCalc goes where you need it.

Apple Watch

Quick calculations without taking out your phone.

Home Screen widget

Open your favourite tool in one tap.

9 themes

Choose the look that suits you.

Android too

OneCalc is also available on Google Play.

WHO IT'S FOR

Handy *every day*

A few of the ways people use OneCalc Pro.

At work

Check that overtime was paid correctly at the end of the week.

At school

Scan homework questions and learn the method, not just the answer.

Shopping

Work out a discount or compare prices per kilo.

Travelling

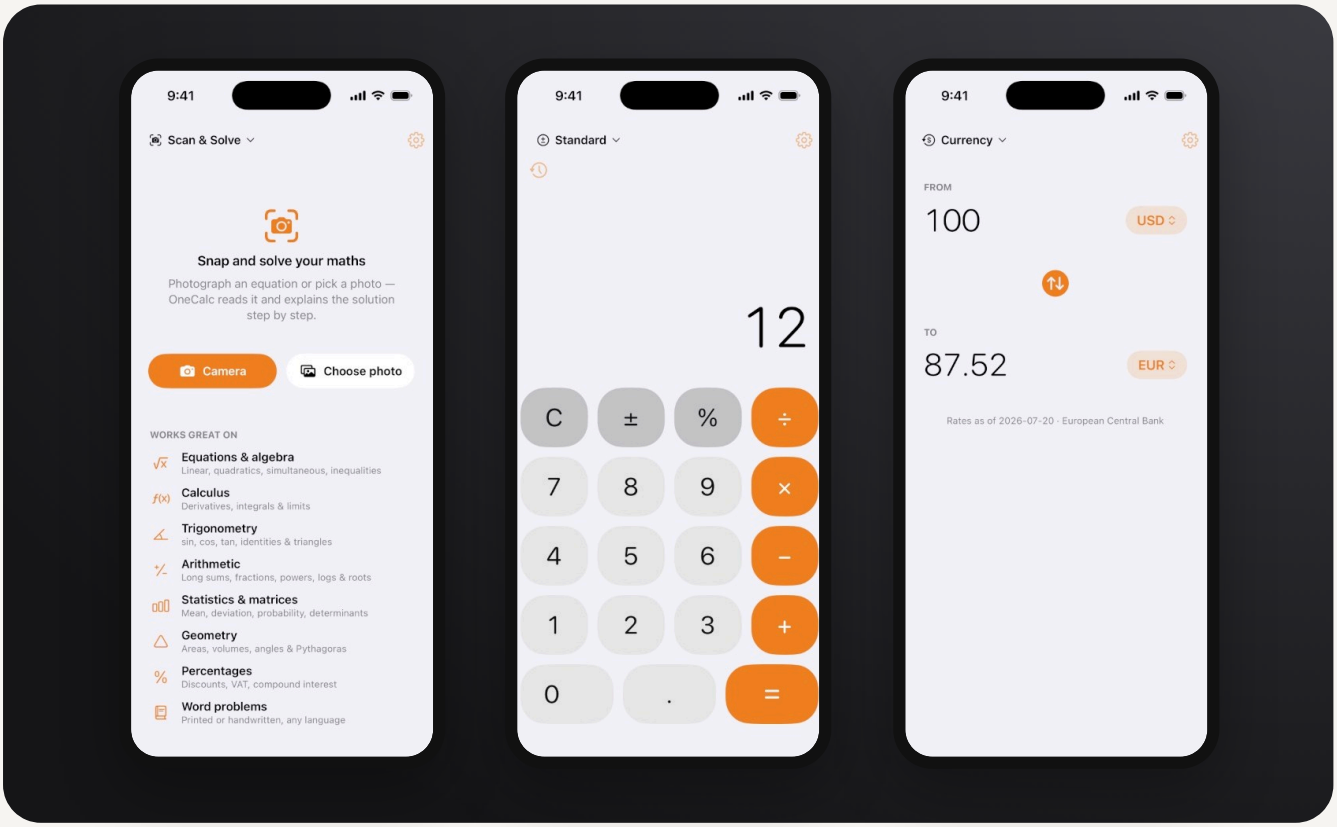
Convert prices in the local currency without data roaming.

At home

Convert recipe units or work out a loan before you sign.

Anywhere

A fast calculator on your phone, wrist and Home Screen.



PRIVACY & FAQ

Simple, *private, honest*

Answers to the questions people ask most.

Do I need an account?

No. Open the app and start calculating.

What is free?

The calculator is free. Premium tools come with a 3-day free trial.

Do I have to subscribe?

No — choose yearly or a one-time lifetime purchase.

Does it work offline?

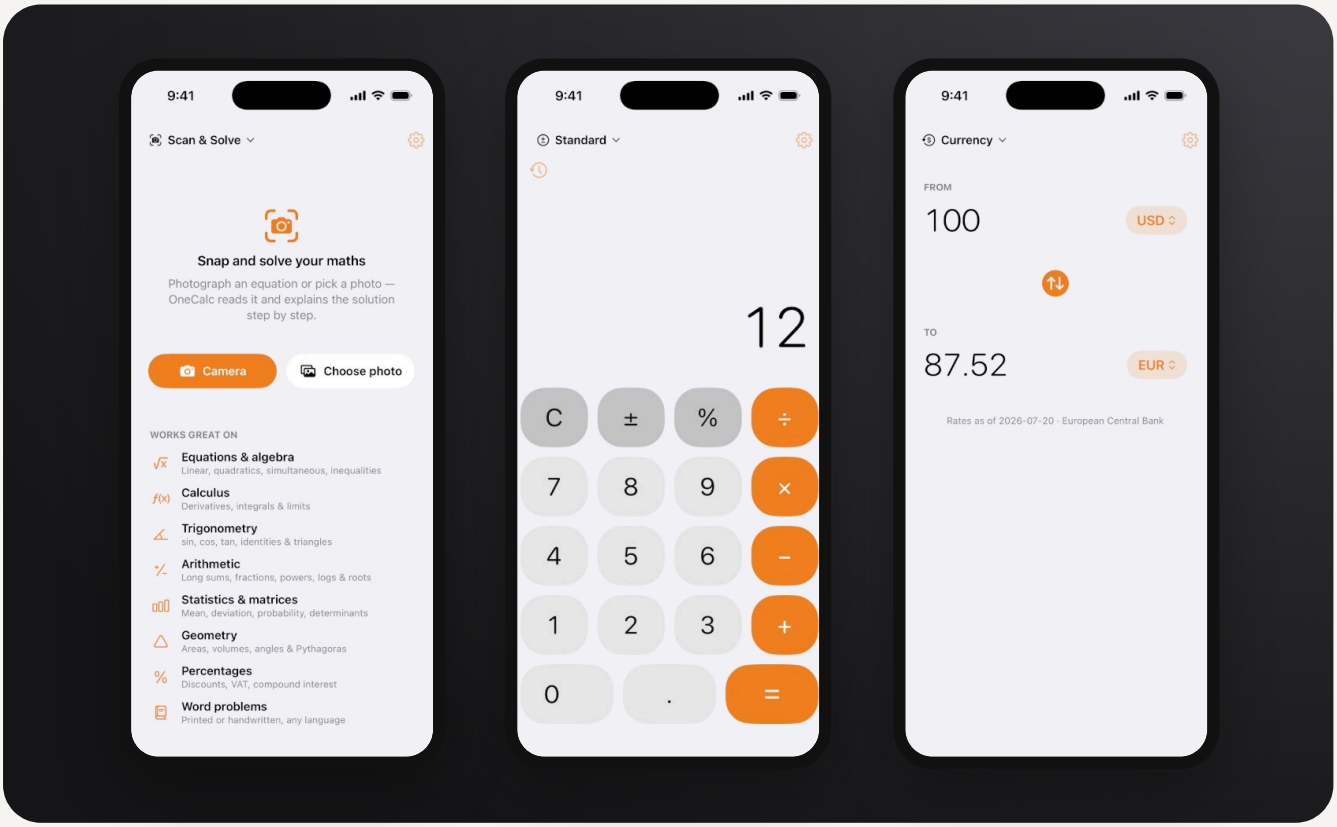
Yes. The calculator, converters and saved currency rates work offline.

What about Scan & Solve photos?

Photos are only used to read and solve the problem you chose.

Can I restore Premium?

Yes, with Restore Purchases on the same Apple ID.



PLANS & PRICES

Try Premium free. *Keep it forever.*

Start with a 3-day free trial of every Premium tool, then choose yearly or pay once for life.
